Report Edit

Feature: Search User Information on regres.in Platform

As a registered user on regres.in, I want to search for my information So that I can view all relevant details

Background:

- Given the user is registered on the regres.in platform

@test1

Scenario Outline: Successfully Search for User Information

- When the user enters their registered ID <id> in the database
- Then they should be able to view their information

id	email	firstName	lastName
<id>	<email>	<firstName>	<lastName>

- And the response should have a valid status code of 200

Examples:

id	email	firstName	lastName
2	janet.weaver@regres.in	Janet	Weaver
5	charles.morris@regres.in	Charles	Morris

Report Edit

Feature: Create New Web Post

I as the user on the services of Json placeholder Want to create new web posts for interact with the community with my own post

@test1

Scenario Outline: Successful Post Creation

- Given the user is in the web platform
- When the user correctly enters their post details

userId	id	title	body
<userId>	<id>	<title>	<body>
- Then it should see his webpost in the system
- And it should get a 201 code successfully

Examples:

userId	id	title	body
11	101	alice	wonderland is a crazy place
11	101	alice and the mirror	everything is different here
11	101	alice and the mad hatter	his perspective is twisted
